

NEGOTIATIONS 2009

Technical Maintenance and Operations Support

*Pre Negotiations
Schedule:*

April 28 – May 01

May 12 – May 15

We are the largest unionized workforce at Air Canada. We perform all of the work below the wing as well as the maintenance on the company's aircraft. Without us it's all grounded.

Our commitment is to keep you informed during our negotiations with Air Canada.

June 4, 2009 Update

Your Negotiating Teams have been meeting with the company non stop.

While we have worked long and hard hours in order to reach an agreement, as of 02:30 this morning, we were unsuccessful.

The Federal Finance Minister has issued a press release appointing Mr. James Farley (former Ontario Justice) to work with all of the Unions to obtain a sustainable path for the company's Pension Plan.

Since this news release and as of right now, we are on standby and have suspended negotiations with the company.

We appreciate your continued support and will keep you updated as events unfold.

In solidarity,

General Chairperson – Central Region
Negotiations Co-Chairperson
