# **BULLETIN**

## **AVEOS PENSION REPRESENTATIVE**

---

With the transition of a number of our members from Air Canada to Aveos there will be a need for a Local Lodge 764 pension representative for those members. This bulletin is an invitation for any member who has transitioned to Aveos and is interested in this position, to contact the Local with your expression of interest.

This person will be responsible for representing Local Lodge 764 members and YVR on the new Aveos pension committee when it is formed. This request for applications is proactive of the committee even being formed yet but we want to be in a position to put the new representative in place as soon as the time comes. We also want to ensure that they have adequate training to perform the job.

Ideally the candidate would be a minimum of five (5) years from retirement and preferably closer to ten (10) years, but that is not a requirement. You would be involved in the oversight of the Aveos pension plan from the union's perspective, communicate information about the pension plan to the members and act on behalf of the members in any issues arising with their pensions.

It is a position that requires a reasonably steep learning curve and initially it will require a fair amount of reading to familiarize yourself with pension plan rules and the plan Text. God knows if I can do it then it cannot be too challenging and anyone can do it. I am more than willing to offer any assistance that I can to the successful candidate to "get up to speed" and any ongoing support that I can to help them in their new role. Ideally we would like to have the representative selected by December.

To apply please submit your name, employee number, work location and a contact email and phone number via email to [11764@iam764.ca](mailto:11764@iam764.ca) . If you have any further questions please contact me directly via email or phone.

Respectfully,

Christopher Hiscock, President  
Canadian Airways Lodge 764
